Highlights of Twoco's anticipated 2007 work program and summary of operations for the year to date includes:

- Participation in the drilling of 9 gross (9.0 net) wells that have resulted in 7 gross (7.0 net) wells being cased for potential gas production and 2 gross (2.0 net) wells being dry and abandoned. Initial production from the cased wells is anticipated in the second and third quarters of this year;
- Participation in the drilling of 18 additional wells for the balance of 2007;
- Current production of 1,100 boe per day; and

- Twoco estimates current behind pipe production capability of 600 boe per day.

Twoco is an oil and gas company engaged in the exploration for, and the acquisition, development and production of, oil and natural gas reserves primarily in the Province of Alberta. Twoco currently has 15,259,806 common shares issued and outstanding as at today's date.

In this news release the calculation of barrels of oil equivalent (boe) is calculated at a conversion rate of 6,000 cubic feet (Mcf) of natural gas for one barrel (Bbl) of oil based on an energy equivalency conversion method. boes may be misleading particularly if used in isolation. A boe conversion ratio of 6 Mcf: 1Bbl is based on an energy equivalency conversion method primarily applicable to the burner tip and does not represent a value equivalency at the wellhead.

Forward Looking Statements:

Certain information set forth in this news release contains forward-looking statements. By their nature, forward-looking statements are subject to numerous risks and uncertainties, some of which are beyond Twoco's control, including the impact of general economic conditions, industry conditions, volatility of commodity prices, currency fluctuations, imprecision of reserve estimates, environmental risks, competition from other industry participants, the lack of availability of qualified personnel or management, stock market volatility and ability to access sufficient capital from internal and external sources.
